HOW WBGU-TV OPERATES was what interested two officials from Howard University, Washington, D.C. The pair recently paid a visit to the campus after staff members of the Public Broadcasting Service (PBS) recommended Bowling Green as an outstanding example of a university-operated public television station. WBGU-TV's general manager, Duane Tucker (left), demonstrated the station's equipment to James Watkins (center), chief engineer of the Howard broadcast communications system, and John P. Simpkins, executive asst. to the vice president of operations.

Board of Trustees News

Board of Trustees Adopts 75-76 Budget, Elects New Officers

During the May 15 meeting of the University's Board of Trustees, the 1975-76 education budget totaling \$39,711,260 was approved, the general fee paid by students was reduced, and new funds were generated by the establishment of a facility fee. The Trustees also elected officers for the coming year and approved two new bachelors degree programs.

Board chairman Ashel Bryan opened the monthly meeting with comments about the annual Student-Trustee Day which was held on campus May 14. The Trustees joined with students in a panel discussion on the future of higher education and Bowling Green State University at WBGU-TV studios. President Moore was moderator for the discussion which was broadcast live on the University's closed circuit system.

The Trustees also attended classes during the day. Mr. Bryan said each of the Board members attended two classes and many of them found, upon arriving at the classrooms, that they were to be the guest lecturers of the day. The Board also attended the Barbershop Spectacular in the University Union that evening.

Immediately prior to the May 15 Board meeting, the Trustees had a private breakfast meeting to discuss faculty and administrative salaries for the coming year. Mr. Bryan, speaking in behalf of the Trustees, expressed "admiration, faith and confidence in the present administration and the job they are doing."

NEW OFFICERS ELECTED

Election of officers for the coming year was conducted and Charles Shanklin, who has been serving as vice chairman, was elected chairman. Robert Savage was elected vice chairman and Kenneth McFall was re-elected secretary to the Board of Trustees.

SUMMER PROJECTS APPROVED

Summer work projects totaling \$362,065 were approved by the Board. The 55 projects, all of which will provide improvements or renovations for residence and dining

(cont. on page 2)

halls, are to be paid from dorm surplus, dining hall surplus or deferred maintenance funds.

The summer projects include the replacement of lounge furniture, draperies and carpeting in some dormitories and numerous other repairs which are normally performed during the summer months when the residence halls are sparsely populated.

EDUCATIONAL BUDGET APPROVED

The Trustees then approved the proposed 1975-76 Educational Budget for the main campus, totaling \$39,711,260. The budget represents an increase of \$2,847,716 over the 1974-75 budget, or about 7.7 per cent.

Dr. Moore noted that the legislature had not yet passed a state appropriations bill allocating funds to Bowling Green and other institutions for the next biennium. The bill was

passed earlier in the week by the House of Representatives and is now being considered by the Senate.

"Under these circumstances, the budget represents our best estimate as of this morning," Dr. Moore explained. He said that Amended Substitute House Bill 155 was a disappointing piece of legislation, since it provided \$325,000 less for Bowling Green in the first year of the biennium than House Bill 555, which was proposed by Gov. Rhodes.

"Just because we have presented this budget for approval today does not mean we have satisfied ourselves and are throwing in the towel," the president continued. "We must proceed on the basis of projected income, but we intend to present our case as forcefully and clearly as possible to the Senate until the bill comes to a vote." He said there was a strong possibility of change in the next few weeks.

Michael Ferrari, vice president for resource planning, said the budget figures could vary, depending on utility prices. He also said the state may legislate mandated pay increases for civil service employees, and it is not known whether the University will receive additional funds to finance these additional expenses.

Dr. Ferrari also pointed out that the budget will require no increase in regular instructional fees for graduate or undergraduate students. Fees for special programs may be increased, however.

He also said that faculty and administrative staff levels are frozen, for the most part, in an effort to curb expenses. The University also proposes to further cut utility bills, and the budget is based on the assumption that Bowling Green can save 15 per cent in this area over the coming year.

Dr. Moore noted his recent 15-point energy-savings plan, and announced that the University would adopt a four-and-a-half-day, forty-hour week beginning June 16, so that most of the University's air-handling systems could be shut down for a longer period over weekends. (See story on page 6.)

The budget approved for the coming academic year is as follows:

Active University Alumnus Is New Chairman of Trustees

Charles Shanklin

Charles E. Shanklin, newly-elected chairman of the University's Board of Trustees, is a 1951 graduate of Bowling Green and a former president of its National Alumni Association.

Mr. Shanklin, a member of the law firm of George, Greek, King, McMahon and McConnaughey of Columbus, received his law degree in 1952 from Ohio State University.

He has been a member of the University's Board of Trustees since 1969, when he was appointed to complete a term which expired in May. He was re-appointed to a full nine-year term by Governor James A. Rhodes on May 14.

Formerly associated with the Ohio Legislative Reference Bureau, Mr. Shanklin is a member of the Anti-Trust Law Committee of the Ohio Bar Association and the Anti-Trust Section of the American Bar Association. He is a member of the Columbus Chamber of Commerce, the Rotary Club of Columbus, and is past president of the Columbus Barristers Club.

Mr. Shanklin is known among students, faculty and administrators at the University for his dedication to the betterment of Bowling Green and his unselfish service toward that end.

He was recipient of an honorary membership in Omicron Delta Kappa, men's national leadership society, in 1972 and the same year was presented with the University's Alumni Service Award. He has also served as president of the Bowling Green State University Foundation.

PROJECTED INCOME	
Prior Year Unencumbered Funds	\$ 792,000
State Subsidies and Appropriations	23,529,860
Student Instructional Fees	12,744,400
Other Income	2,645,000
TOTAL INCOME	\$39,711,260
PROPOSED EXPENDITURES	
Board of Trustees and President's Office	\$ 276,415
Provost's Area:	
Collegial, School, and Instructional Support Services	24,596,664
Student Affairs	975,261
Scholarships and Grants	755,827
Faculty Research Fund	120,000
Sub-Total	\$26,447,752
Vice President of Resource Planning:	
Resource Planning Office	\$ 259,685
Computational Services	1,233,448
Sub-Total	\$ 1,493,133
Vice President for Operations:	
Business, Personnel, Safety	\$ 1,890,899
Plant Operation and Maintenance	4,177,928
Sub-Total	\$ 6,068,827
Vice President for Public Services:	
University Alumni, Development, Communications and External Relations	\$ 737,190
Centralized Programs:	
Retirement, Benefits, and Related Programs	\$ 3,752,334
Local Capital Improvements and Rentals	197,000
General University Contingency	313,109
Special Achievement Award	50,000
Inter-Institutional Program Agreements	375,500
Sub-Total	\$ 4,687,943
TOTAL EXPENDITURES	\$39,711,260

The Board also approved a \$1,182,613 educational budget for the Firelands Campus:

SOURCES OF INCOME:	
State Appropriation	
Lower Division	\$ 664,760
Upper Division	40,000
Sub-Total	\$ 704,760
Student Fees	
Lower Division	
Instruction	\$ 395,352
General	46,876
Upper Division	17,625
Sub-Total	\$ 459,853
Miscellaneous Income	18,000
TOTAL INCOME	\$ 1,182,613
PROPOSED EXPENSES:	
Faculty and Staff Contracts	\$ 630,000
Classified Staff	107,489
Total Staff Benefits	122,327
Operating	322,797
TOTAL EXPENSE	\$ 1,182,613

FACILITY FEE ESTABLISHED

The Trustees established a Facility Fee of \$17 per quarter to be paid by each student who registers for nine or more quarter hours. Students who register for eight or less quarter hours will pay \$2 per quarter hour.

The Facility Fee is permitted by Amended Substitute House Bill 86. Proceeds from this fee will be used to pay debt charges on six University buildings which provide a variety of student services, including the University Union, the Ice Arena, Health Center, and Student Services Building. The fee is expected to generate \$815,900 for 1975-76.

A FULL-TUITION SCHOLARSHIP was awarded to Daniel Overmeyer, a Defiance High School junior, at the first Outstanding High School Juniors banquet at Bowling Green on May 8. The banquet honored 68 high school juniors from schools throughout northwest Ohio. Two Presidential Honors Scholarships were presented at the banquet. In addition to the full-tuition award given to Mr. Overmeyer, a half-tuition scholarship was awarded to Sharon Flanigan, a student at Sylvania High School. Pictured above (from left) are Mr. Donald Overmeyer, his son, Daniel, Mrs. Overmeyer, and President Moore.

GENERAL FEE REDUCED

With the establishment of the new fee, the Board lowered the General Fee paid by students each quarter from \$50 to \$39. General Fee monies were formerly used to pay debt charges on student services buildings. Students serving on the General Fee Allocations Board recognized the need to raise the fee, but legislation does not permit the fee to be raised to more than \$50.

The combined total of the General Fee and the Facilities Fee is \$56, so that students will be paying \$6 more per quarter next year. Budgets supported by the General Fee and the Facility Fee were then approved for the period June 16, 1975 to June 30, 1976.

Facilities, organizations and services supported by the General Fee are as follows:

*BG News	\$ 80,554
*BGSU Gospel Choir	1,100
Black African Peoples Association	700
Black Cultural Activities	9,500
Black Student Union	6,000
*Campus Recreation and Intramurals	11,000
Commuter Center	5,000
*Cultural Activities	9,000
Graduate Student Senate	8,000
*Ice Arena	47,935
*Intercollegiate Athletics	716,015
La Union de Estudiantes Latinos	3,000
Men's Intramurals	13,000
Special Recreational Activities	13,000
*Student Activities	30,000
Student Court	2,000
Student Government Association	11,000
*University Health Center	405,083
*University Union	448,813
Volunteers in Progress	5,000
Women	2,000
*Women's Competitive Sports	75,000
World Student Association	2,300
TOTAL	\$ 1,905,000
*Areas which generate additional income or receive support from sources other than the General Fee.	

A breakdown of allocations from Facility Fee income is as follows:

Golf Course	\$ 19,150
Ice Arena	130,732
Stadium Building	160,000
Student Services Building	104,900
University Health Center	168,437
University Union	232,681
TOTAL	\$ 815,900

BOND AGREEMENT FINALIZED

Following action on the 1975-76 budgets, the Board approved the second supplemental trust agreement which finalized arrangements between the University and Chemical Bank, New York, for the sale of 1975 Series Bonds.

The Trustees authorized the issuance of the Bonds, totaling \$3,450,000, at their April meeting. Monies obtained by the sale of the bonds will be used to retire General Receipts Notes of the 1974 Bond Series, and to fund various construction projects. Opening of bids for the bonds was scheduled for May 21.

Part of the funds generated by the sale of the bonds will be used toward construction of the new General Purpose Building, a project initiated by the Alumni Association. These funds will be repaid to the University by the Alumni Association as pledges from alumni donors are met.

The Trustees also approved a resolution designating certain uses and allocation of costs of the General Purpose

(cont. on page 4)

Building. The action was necessary because part of the facility is designated for uses not legally fundable by the sale of general receipts bonds.

Using floor plans of the proposed building, the Board designated 14.18 per cent of the square footage for alumni and development use. The remaining 83.82 per cent was allocated for general purpose use.

Trustees also passed a resolution authorizing the University treasurer to secure temporary interim financing to begin construction on the General Purpose Building should it be necessary. Provisions for the interim financing are necessary in the event bids on the general receipts bonds are not acceptable. Construction bids for the new building were opened May 20.

EQUAL OPPORTUNITY PROGRAM REVISED

The Board also approved the University's Equal Employment Opportunity Policy Statement and Affirmative Action Program, as submitted to the Trustees by the Coordinator of Human Resources, Vivian Lawyer.

Trustees received the program proposals at their April meeting. A committee of Trustees met with Ms. Lawyer and Dr. Ferrari to review the program, making minor revisions.

The new program replaces the policy statement and program which was adopted by the Board on Feb. 24, 1972. According to Ms. Lawyer, the new program establishes a more clearly-defined grievance procedure to resolve complaints of discrimination because of race, religion, color, national origin, sex, age or handicap. The procedures are applicable to students, faculty and administrators.

The new program establishes an Affirmative Action Advisory Council to advise the coordinator of human resources on policy matters and an Equal Opportunity Hearing Board which will conduct formal hearings.

The Board provided that the revised policy and statement become effective immediately. Ms. Lawyer commented that the new grievance procedures would not be fully operational until members of the Advisory Council and Hearing Board are selected and trained for their duties.

Copies of the revised Equal Employment Opportunity Policy Statement and Affirmative Action Program will be distributed to faculty, staff and employees in the near future. Copies will also be available to students, friends of the University, alumni and others upon request.

EASEMENTS GRANTED TO BOWLING GREEN

The Board authorized the granting of easements to the city of Bowling Green for roadway and utility installations involved in the proposed construction of an East Wooster boulevard.

The boulevard would extend from I-75 to the west side of the campus. Granting of the easement was necessary so that the city could move ahead with requests to the Ohio Department of Transportation.

Mayor Charles E. Bartlett said the Board's action does not mean the project can begin immediately. He said the city would be "lucky to get it done in four years."

The boulevard plan was prepared by the University's consultant, James H. Bassett, Inc., Lima.

NEW PROGRAMS APPROVED

Two new academic programs were approved by the Board.

Approval was given to a proposal from the College of Business Administration for an undergraduate specialization in public and institutional administration, leading to the degree of bachelor of science in business administration (see March *Monitor*, page 6).

The specialization program, which will begin with the fall quarter, 1975, will train students for careers as managers of hospitals and other publicly-oriented or government-oriented institutions. The curriculum includes a combination of business and management courses already offered by the University. No new faculty or staff personnel will be needed to implement the program.

Also approved was a proposal for restructuring the department of speech as a School of Speech Communication (see April *Monitor*, page 5), to become operational by the opening of the 1975-76 academic year. In addition, Trustees approved a program offering the degree of bachelor of arts in communication, authorizing the University to submit the program to the Board of Regents for approval.

F. Lee Miesle, chairperson of the department of speech, will direct the new School of Speech Communication until September, at which time he plans to return to full-time teaching duties. Delmer Hilyard, professor of speech, has been designated to become the School's director in September.

Dr. Miesle commented that the new degree program will be another first in higher education nationwide.

"No other institution in the country offers an undergraduate degree in speech communication at the present time, so far as we have determined," he said. "We know that a number of proposals for similar programs are being considered by other schools, but none are presently operational."

SPONSORED GRANTS AND CONTRACTS APPROVED

Trustees approved acceptance of \$162,750 in grants and contracts received during the month of April. The grants received by the University thus far for the 1974-75 fiscal year total \$3,753,826, as compared to \$2,540,176 for the same period (July 1-April 30) during the 1973-74 fiscal year.

FIRELANDS BOARD MEMBER APPOINTED

The appointment of Anne Russell of Milan, to the Firelands Campus Board was approved. Mrs. Russell will be replacing Norris Welch, who resigned. The term will expire in 1979.

Mrs. Russell is a graduate of Maumee Valley Country Day School, Toledo, and Stephens College, Columbia, Mo., and is a former faculty member at Stephens.

PERSONNEL CHANGES APPROVED

The following personnel changes were approved by the Trustees:

Administrative retirement: F. Eugene Beatty, director of special projects, effective June 1.

Administrative resignation: J. C. Scheuerman, vice president for operations, effective June 15.

Academic leaves of absence: Lloyd Buckwell, professor of quantitative analysis and control, 1975-76 academic year; Harold Fisher, asst. professor of journalism, 1975-1976 academic year; John L. Hayden, asst. professor of mathematics, Sept. 1, 1975, to August 31, 1976; Marilyn Solt, asst. professor of English, 1975-76 academic year; William Stringer, asst. professor of economics, 1975-76 academic year.

Academic retirements: (See story on page 8.)

Academic resignations: Douglas D. Blough, art director, WBGU-TV, effective June 30; Robert T. Duquet, professor of computer science, effective June 15; Michael J. Flys, professor of romance languages, effective Aug. 27; Robert Henderson, professor of management, effective June 15; William G. Hinkle, asst. professor of speech, effective June 15; Ronald L. Lomas, instructor in speech and ethnic studies, effective June 15; Jacqueline Means, asst. director of career planning and placement, effective March 31; Francis Mulvey, asst. professor of economics, effective June 15; Roy Rotheim, asst. professor of economics, effective June 15; J. David Row, instructor in business education, effective May 2; Joan K. Stepenske, instructor in computer science, effective June 15; Leslie Sweeney, clinical instructor in speech pathology and audiology, College of Health and Community Services, effective June 30.

Changes in assignments, ranks and salaries: Thomas DeCola, asst. professor to assoc. professor of history, Firelands, retroactive to Sept. 15, 1974; Robert Marrer, coordinator of counseling, Firelands, courtesy rank of asst. professor of education, effective March 28.

Part-time faculty appointments: Marge L. Currie, instructor in home economics, spring quarter, 1975; Thayla Brodie, clinical supervisor, special education, spring quarter, 1975.

Part-time faculty reappointments: Gerald Biernacki, instructor in educational foundations and inquiry; John R. Foster, asst. instructor in industrial education and technology; Wayne Graham, instructor in ethnic studies; Robert Jackson, instructor in special education; Janet Lewis, instructor in home economics; Garnet Ohns, instructor in home economics; Martha Weber professor of educational curriculum and instruction — all for spring quarter, 1975.

Non-faculty part-time appointment: Debbie Dobay, discussion leader, home economics, spring quarter, 1975.

EMERITUS STATUS CONFERRED

The Board conferred emeritus status on two retired faculty members.

Martha Gesling Weber, professor of educational curriculum and instruction, was given the title of professor emeritus of education. Dr. Weber retired in December, 1974, after 28 years on the Bowling Green faculty.

Raymond C. Whittaker, former dean of students who also retired in December, 1974, was named dean emeritus of students. He had been associated with the University since 1949.

REPORTS HEARD

Trustees heard reports from the Faculty Senate chairperson and the student representative.

Ramona Cormier reported that the Senate had approved the new Academic Charter known as the COUGAR document and that it would be sent to the Trustees for study before the next Board meeting, provided it is approved by the faculty as a whole.

She also commented that the newly-approved affirmative action procedures had been studied by the Senate and they will complement faculty grievance procedures as outlined in the new Academic Charter.

Student representative Dennis Bottonari reviewed the work of the Recreational Facilities Committee and its study of the need for an indoor recreational facility on the campus. He presented to the Board 7,238 student signatures in support of construction of such a facility, and said more petitions were still coming in.

Board president Ashel Bryan commended the committee for their work, particularly in communicating with the student body. He pointed out that most of the students working on the committee will not be on campus to enjoy the facility by the time it is built.

Mr. Bottonari also introduced his new assistant, Mark Kerns. Mr. Kerns is a sophomore in the College of Arts and Sciences, majoring in political science in the pre-law curriculum, from Urbana.

Other reports submitted to the Board included a listing of the status of capital improvements, a final report of spring quarter enrollment, and a report of examination by the state examiner of University accounts.

The enrollment report showed a total of 14,924 students enrolled on the main campus during spring quarter, as compared to 14,814 a year ago.

The total includes 377 students in the College of Health and Community Services, as compared to 38 enrolled in the College a year ago. The College of Business Administration also recorded sizeable gains, with 3,329 students. The total is 413 more than the spring quarter enrollment in the College a year ago.

The number of graduate students also increased, with 1,881 enrolled this quarter, as compared to 1,722 last spring.

Although enrollment in the College of Education has dropped from 5,370 to 4,874 students, the College remains the largest on campus.

There are 3,799 students in the College of Arts and Sciences, down from 4,011 a year ago. The College of Musical Arts has 367 students, down from 427 during spring quarter, 1974.

Enrollment at the Firelands Campus was reported at 769, down from 856 students a year ago.

The Board adjourned at noon to attend a luncheon with the Board of Regents. The next scheduled meeting of the Trustees will be held June 14, in conjunction with the spring commencement ceremonies.

Announcements and Reports

Board of Regents Meet at Bowling Green

The Ohio Board of Regents held its May meeting in the Alumni Room of the University Union on Friday, May 16. It was the second time the Regents had held a meeting at Bowling Green. The Board has made an effort to schedule meetings at various college campus across the state in order to become better acquainted with college programs and personnel.

The Regents approved six new associate degree and four

(cont. on page 6)

THE OHIO BOARD OF REGENTS listens to testimony during a hearing on revised Rule R.G.-1-08 in the Alumni Room of the University Union May 16. Regents in the above photo are (left to right): Sen. M. Morris Jackson, an ex-officio member; Thomas L. Conlan; David J. Hill; Marvin L. Warner, chairman of the Board, and Mary Ellen Ludlum.

new baccalaureate programs and one masters degree program during the course of the meeting.

Included were two bachelor of science in criminal justice degrees — one at the University of Toledo and the other at Bowling Green. Chancellor James A. Norton recommended approval of both programs to the Board.

It was noted that although both degree programs are clearly duplicative in subject matter, both were sound programs designed to coordinate with courses at Michael J. Owens Technical College.

Also approved was a bachelor of science in business administration degree with specialization in public and institutional administration, proposed by Bowling Green, and a master of public administration at the University of Toledo.

The Regents then opened a public hearing for discussion of Amended Rule R.G.-1-08 dealing with standards for issuance of certificates of authorization under section 1713.03 of the Ohio Revised Code.

The rule establishes standards for the issuance of certificates by institutions of higher education in Ohio. The amendment proposed by the Regents would provide standards to govern off-campus programs conducted by colleges and universities and would require that they must be comparable in quality with those programs offered on the main campus.

Charles Leone, dean of the Graduate School, testified at the hearing as a spokesman from the Regents' Advisory Council for Graduate Study. He said the revised rule had strong support among the graduate deans. He also requested that the revised rule contain a provision that each off-campus course have a relationship to a degree program offered by the university.

Asst. provost Ralph A. Wolff of Antioch College also testified at the hearing and expressed concern over the impact the revised rule would have on non-traditional institutions such as Antioch. He suggested three modifications to the proposed revisions of the rule, two of which were subsequently accepted by the Board.

The modifications did not change the spirit of the revised rule, but provided flexibility for interpretation. The Board of Regents amended Rule R.G.-1-08 and provided that it become effective June 1, 1975.

The Regents also approved a policy statement on off-campus instruction. Chancellor Norton congratulated the Regents on approval of the revised rule and policy statement. He said the action "puts Ohio a step ahead of other states in the field of higher education."

Chancellor Norton thanked President Moore for the hospitality extended to the Regents by Bowling Green during their stay on the campus. He also expressed his thanks for the University's "loan" of Richard Edwards, executive asst. to the president, to be director of last year's Citizens' Task Force on Higher Education.

Marvin L. Warner, chairman of the Regents, also noted that he had worked with Dr. Moore in his capacity as president of the Inter-University Council, and was investigating the possibility of Regents' awards to universities for excellence in research and other areas, as recommended by the council.

The Regents spent two days on campus. Their activities included a luncheon with the Bowling Green Board of Trustees on Thursday, May 15, and a forum with the Graduate Student Senate on Thursday afternoon.

The next meeting of the Regents is scheduled for 2 p.m., June 20, in Columbus.

Work Week Shortened For Summer Quarter

Most University employees will be starting to work earlier this summer, and they'll be working later, too. But weekends will be longer, since most offices will close at 11:30 a.m. on Fridays.

President Hollis A. Moore has announced a change in the University's operating schedule to permit a four-and-a-half-day, forty-hour work week during the summer quarter. The change was made to permit earlier shutdown of air-handling systems in University buildings in a concerted energy-conservation effort.

Most University employees will report to work at 7:30 p.m. Monday through Friday. Offices will remain open until 5:30 p.m. Monday through Thursday, but will close at 11:30 a.m. on Fridays. The schedule will begin June 16 and should generate about \$15,000 in savings.

According to Robert McGeein, coordinator of space planning, the new schedule will apply to all University employees with the exception of those required to provide services for students residing on the campus and faculty members who have scheduled Friday afternoon classes.

"Some exceptions to the new hours will occur," Mr. McGeein pointed out. "Operations like the University Union, bookstore, campus safety, library, and certain plant operations will be handled on an individual basis, but we are asking each area to take energy-saving steps whenever possible."

Mr. McGeein has been appointed to provide overall coordination of the University's energy conservation program. He said the entire summer program, including the shortened work week, should save the University approximately one-and-a-half million kilowatt hours.

Air-conditioning systems in most academic and office buildings will be shut off for the weekends except in those areas where classes will be held, or heat-sensitive materials are stored.

During summer quarter, Mr. McGeein's office will be investigating the possibilities of retaining the shortened work week during the academic year in order to cut down heating costs as well.

Other energy-saving steps include the adjustment of illumination levels in all buildings and thermostat settings of 76 degrees for air conditioning and 68 degrees for heating.

President Moore hopes to reduce energy costs by at least 15 per cent during the 1975-76 year, saving approximately \$250,000.

Wire Story on Audit Refuted by President

A recent wire story reported that Bowling Green State University was asked by the Auditor of State to take steps to include its accounting records of public service activities in the University's financial reporting system by July.

The news story made specific reference to the Management Center, Inc., a non-profit corporation through which University faculty provide a variety of programs, seminars, and services designed to meet the organizational and

developmental needs of corporate, public, and health care executives and managers in the area.

President Moore pointed out that the University had already been advised of the need for a full financial disclosure of the center by its own resident examiner, and had approved an annual audit of its public service centers through an external agent.

"Unfortunately, the news story and the auditor's opinion totally ignored this fact," Dr. Moore said. "The auditor in no way, directly or indirectly, suggested any improprieties whatsoever in the financial status of the centers, nor any other activity of the University, but the very nature of the news story provided unwarranted speculation about such matters in some quarters."

"We are taking steps to meet fully the financial reporting recommendations for the Management Center, Inc., the Center for the Study of Popular Culture, The Philosopher's Index, Popular Music and Sociology, and The Journal of Popular Film," he added.

David Frost Selected Commencement Speaker

David Frost, internationally known master of television talk show techniques, will be the speaker at Bowling Green's commencement ceremonies on Saturday, June 14.

The ceremonies, to be held at Doyt L. Perry Field, will mark the graduation of approximately 2,000 baccalaureate candidates. Degrees will also be awarded to more than 200 graduate students pursuing masters degrees and a dozen doctoral candidates.

Two honorary degrees will be presented at the ceremonies.

An honorary doctor of science degree will be awarded to Harold F. Mayfield, Waterville, in recognition of his accomplishments as a conservationist and ornithologist.

Rabbi Leon Israel Feuer, D.D., Toledo, will receive an honorary doctor of humane letters degree for his leadership in the Jewish community and civic endeavors.

Mr. Mayfield is a former director of personnel relations and member of the executive department of Owens-Illinois, Inc. He retired in 1971. Though his career was in the field of business, he simultaneously pursued a serious avocation in ornithology.

In the area of business he has authored more than 100 articles on various phases of personnel work, as well as chapters in three textbooks. He has also lectured in management courses at the University of Michigan and the University of Chicago.

He has also authored more than 100 publications in the field of ornithology, the most notable of which was a definitive book on the Kirtland's Warbler, one of America's rarest birds. The book won the Brewster Memorial Award of the American Ornithologists' Union in 1961.

Rabbi Feuer, a native of Pennsylvania, has been the Rabbi of Congregation Shomer Emunim at The Temple in Toledo since 1935. He has served as president of Toledo B'nai Brith, the Toledo Zionist District and the Jewish Community Council and was chairman of the United Jewish Fund.

As director of the Washington Bureau of the American Zionist Emergency Council in 1943 and 1944, he helped to mobilize public sentiment in favor of the establishment of a Jewish Commonwealth in Palestine. He is author of the

book "Why a Jewish State," the first English publication advocating the establishment of a state for Jews.

He also wrote "On Being A Jew," and collaborated in authoring "The Jew and His Religion." He served as president of the Central Conference of American Rabbis from 1963-1965, and in 1966 was appointed a public member of the Executive Body of the Jewish Agency for Israel, supreme governing body of the World Zionist Organization, for a five-year term.

The commencement speaker, David Frost, is a native of Kent, England. A talented athlete in school, he considered becoming a professional soccer player, but instead took up a short-lived career as a school teacher. After one year as a teacher he won a scholarship to Cambridge where he first developed an interest in journalism and drama. He earned a bachelors degree in 1961.

His first big break in the field of television came with a satirical BBC production called "That Was The Week That Was." Mr. Frost was selected for the show because of "his dexterity in getting from a question to a joke answer."

In 1962, he began work on a pilot program called TW3 in Britain. A year later, an American version of the show was produced by NBC, starring Mr. Frost.

In 1969, Westinghouse Broadcasting established David Frost in his own talk show where he exhibited his affinity for both serious conversation and pure entertainment. As host, he interviewed such figures as Golda Meir, Spiro Agnew, Stokely Carmichael, Ed Muskie, Rose Kennedy, Richard Burton, Elizabeth Taylor and others. Topics have included the Attica riots, birth control, military justice, celibacy in the Catholic Church, and the Indochina War.

His climb to fame has occurred in little more than 10 years. The 34-year-old Mr. Frost is already the subject of two biographies by Willi Frischauer, the first of which was written when Mr. Frost was only 30. The speaker is the holder of many awards, including two Emmys for his television talk show. He lectures extensively throughout the United States on topics ranging from his British homeland to his experiences in the field of television.

Florence Currier

Kenneth McFall

HONORARY ALUMNI — Two persons long associated with Bowling Green State University, but not graduates of the University, received the "Honorary Alumnus Award" on May 28. Dr. Kenneth H. McFall, former executive vice president and currently secretary to the Board of Trustees, who has been at Bowling Green for 32 years, and Florence Currier, former dean of women and a staff member for 21 years, were honored by the Bowling Green Alumni Association for their years of service to the University. The award was initiated by the Alumni Association two years ago to honor persons who have made significant contributions to the University and who are not alumni. Previous winners have been Warren Steller, Alva Bachman and Gilbert Cooke.

14 Faculty Members Announce Retirements

Fourteen members of the University faculty have announced their retirements, effective in June and July. Their combined terms of employment represent nearly 350 years of service to the University.

Grover and Virginia Platt are both retiring from the College of Arts and Sciences. Dr. Grover Platt, professor of history, has been a member of the faculty since 1946, serving as department chairperson from 1948-1957 and again in 1959-60. In 1964-65 he served as the first chairperson of Faculty Senate, which was formed in that year.

Dr. Virginia Platt joined the faculty in 1947. An associate professor of history, her specialty is in the area of colonial and American history. She is an honorary member of the campus chapter of Mortar Board.

Three faculty members from the College of Business Administration have announced their retirements.

Howard Huffman, professor of quantitative analysis and control, has been a member of the faculty since 1948. During his 27 years of service, his specialty has been in the area of statistics.

Howard Kane, also a professor of quantitative analysis and control, also joined the faculty in 1948. His specialties are cost accounting systems. He has also conducted considerable research on the subject of televised instruction of accounting.

Galen Stutsman, former chairperson of the department of business education (1953-57) has been a faculty member for 25 years, having joined the Bowling Green staff in 1950. He was the first president of the University's credit union in 1958 and in April was named Business Educator of the Year by the Ohio Business Teachers Association.

Eight faculty members from the College of Education have announced their retirements.

Samuel Cooper, professor of health and physical education, has recorded 29 years of service to Bowling Green, including 25 years as chairperson of the department of health and physical education. He also coached the swimming team for 17 years, during which time the team won six Mid-American Conference swimming championships. He was named the first honorary letterman at Bowling Green last September, and in October was made a trustee professor by the Board of Trustees.

Forrest Creason, professor of health and physical education, has been a member of the faculty for the past 24 years. He is a former golf coach and also served as assistant football coach and athletic ticket manager.

Irvin Brune, professor of education in the department of educational curriculum and instruction, is retiring after 12 years at Bowling Green. Dr. Brune has taught mathematics education and represented his College on the advisory committee which introduced the University's Honors Program in 1963.

Ralph Geer, professor of education in the department of educational administration and supervision, is retiring after 27 years at Bowling Green. In addition to his teaching responsibilities, Dr. Geer has served in a number of administrative assignments, including dean of extension programs, placement director, and veterans counselor.

Martha Gesling Weber, professor of education in the department of educational curriculum and instruction, has retired after 28 years at Bowling Green. Dr. Weber is one of the nation's best-known reading authorities. She was instigator of the University's Reading Center and served as its director from 1946-1965. She is also the winner of three outstanding teaching awards.

Harvey Miner, assoc. professor of industrial education

and technology, has served the University for the past 28 years. His teaching specialties have been in the areas of woods, metal casting and construction. In 1961, Dr. Miner took a leave of absence to spend a year in Nigeria with the U.S. Agency for International Development, instructing Nigerian teachers in metal and woodworking.

J. Levan Hill, also a professor of industrial education and technology, is retiring after 27 years on the University faculty. Dr. Hill served as chairperson of the department of industrial arts from 1954 to 1967. He is an accomplished craftsman in metal working and has won several awards for his work in silver.

Ross Rowe, professor of education in the department of special education, is retiring after 10 years at Bowling Green. Dr. Rowe is a specialist in the area of emotional problems of children and has created and implemented a number of programs, both graduate and undergraduate in teacher preparation in the field of learning disabilities and behavioral disorders and other special education areas.

In addition to the above retirees, **Amy Torgerson**, professor of physical education and recreation, is retiring a second time. Mrs. Torgerson retired several years ago but returned for the past two years to serve as acting chairperson of the physical education and recreation department, giving her a total of 26 years service at Bowling Green.

Firelands Campus Earns North Central Accreditation

The University's Firelands Campus has received full accreditation from the North Central Association of Colleges and Secondary Schools.

Previously accredited as a regional campus of Bowling Green, Firelands is now accredited as a full-fledged institution on the basis of its own merit.

Prior to visitation by the accrediting team, Firelands faculty, staff and Advisory Board conducted a self-study of the campus, under the direction of Jeanette Danielson, asst. professor of English.

In addition to granting accreditation, the visiting educators from the North Central Association made recommendations for improvement of the campus. Firelands will submit a progress report to the accrediting agency in 1977.

Located near Huron, the Fireland Campus is designed to serve residents in the surrounding three counties — Erie, Huron and Ottawa. However, students from other counties and even out-of-state enroll at Firelands each year. Enrollment in the fall quarter, 1974, was more than 1,100 students.

Bowling Green first offered courses in the Firelands area in 1946 when University faculty taught extension classes at the Sandusky High School. Classes were discontinued in 1948, but resumed in 1953 when the Sandusky Academic Center was operated from Sandusky High School, primarily to provide a two-year cadet teacher training program.

In 1965, a Committee On Education Development (COED) was formed to guide efforts to establish a full-time campus. Following a tremendously successful fund drive in

the surrounding area, and with the aid of state funds, ground was broken for the first two buildings in 1967.

The first class of students to attend classes at the Firelands Campus in Sept., 1968, numbered approximately 700.

In 1969, technical education programs were added to the curriculum and Phase II of the Firelands building program, providing an EPIC laboratory, gymnasium, 300-seat large-group instruction area, computer center and faculty offices, was completed in 1972.

Most courses offered at Firelands are freshman or sophomore-level, although a few junior, senior, and even graduate level courses are offered if demand is sufficient.

Students can complete two or more full years of study at Firelands toward a baccalaureate degree at Bowling Green or another four-year institution. They can also pursue an Associate of Arts degree, which requires two years of general studies courses in seven different areas — humanities, liberal studies, science, social sciences, pre-business administration, and elementary or secondary teacher preparation.

More than 200 courses are offered at the campus, which has more than 30 full-time faculty.

According to M. Douglas Reed, dean of the Firelands campus, the recent accreditation is another important step in the phenomenal growth and enthusiastic pursuit of quality in education characterized by the regional campus.

"We can now proceed to pool our resources and efforts through campus groups like the Planning Team in dealing with the areas needing improvement," he said. "The evaluating team was confident that we have the internal means necessary to deal with these areas."

Arts and Sciences Awards First General Education Grants

The College of Arts and Sciences has awarded seven grants of \$500 each from its newly-created General Education Resource Fund (GERF). The grants will support the development and evaluation of curricular programs in general education and are available to faculty members in all colleges at the University and on the Firelands campus.

The seven projects selected for the grants are:

Alice Heim, asst. professor of English, and **John Newby**, asst. professor of educational foundations and inquiry and coordinator of the Modular Achievement Center, to assess the effects of two instructional programs on the development of freshman writing skills.

Ryan Tweney, asst. professor of psychology, to complete the evaluation of the performance of students in psychology 201 (introduction to psychology).

Janet Parks, asst. professor of physical education and recreation, and the General Physical Education Activity Committee, to implement a new instructional model for the development of physical fitness in students enrolled in physical education at the 100 and 200 levels.

Elliott Blinn and **Paul Endres**, assoc. professors of chemistry, to support a re-examination of the organization and content of freshman chemistry courses, with a view toward a restructuring of the department's general education curriculum.

Oliver Chamberlain, asst. professor of music, department of composition and history, to develop and implement a self-paced instructional model for students taking music in western civilization, masterpieces of music, and basic musicianship-literature.

Clifford Long, professor of mathematics, and **Thomas Hern**, assoc. professor of mathematics, to produce and evaluate the use of films in teaching beginning calculus, probability and statistics, and numerical analysis to students enrolled in general education math courses.

Joel Rudinger, asst. professor of English, Firelands, to initiate and evaluate a new method to stimulate students' interest in poetry in English 202 through the use of audio-visual techniques and a graphic dramatic approach.

The General Education Resource Fund was created in January to encourage faculty to study the needs of the lower division student and to stimulate curricular innovations in the area of general education.

The College of Arts and Sciences plans to award \$10,000-\$15,000 in mini-grants of \$500 or less each year in an effort to improve the quality of general education at Bowling Green.

John G. Eriksen, dean of the college, regards general education as a high-priority activity at the undergraduate level.

"It is general education which provides the breadth and flexibility to relate specialized skills to a rapidly-changing world," he said. "Modest financial assistance to help implement efforts to improve courses and programs can serve a valuable purpose."

GERF is administered by the University Division of General Studies, which will work closely with the faculty members in monitoring the seven ventures and evaluating their success.

New proposals for possible funding may be submitted at any time. A list of guidelines for funding requests may be obtained from Richard Giardina, director of the University Division of General Studies, and completed proposals may be submitted to him.

Teacher Education Redesign Begun by College of Education

The College of Education has begun an extensive study of its programs for prospective teachers in preparation for redesigning those programs to conform with new standards set by the State Department of Education.

In an effort to improve the quality of teachers trained in Ohio colleges and universities, the State Department of Education, in conjunction with various groups throughout the state, has spent more than a year in studying the needs of elementary and secondary schools in the state and the ability of teachers to meet those needs.

The result of this study was the issuance in January of a new set of state accreditation standards. Colleges and universities throughout the state which have programs in teacher education are required to write and submit by July 1, 1976, a comprehensive plan for meeting these standards. Full implementation of the plan is expected by July 1, 1980.

Patricia Mills, assistant to the dean for the coordination of professional programs, says the evaluation that will take place between now and July, 1976, is one of the most extensive ever undertaken by the College of Education.

"Many people have expressed the need to improve teacher education in Ohio," she said. "The state-wide study group has made some strong recommendations, particularly in the area of field-based experiences for future teachers."

(cont. on page 10)

Dr. Mills added that Bowling Green has added a number of field experiences to its education curriculum in the past five or six years.

"We have already identified some of these needs, so we are further along than some institutions," she explained.

The new standards require that students spend more time in the schools prior to student teaching, since early exposure could help students determine if they are really suited for teaching. The state also recommends exposure to different kinds of school districts, from urban to rural.

Other items in the new set of accreditation standards include:

1. clinical preparation in the use of modern diagnostic instruments and observational techniques.
2. preparation in the teaching of reading.
3. dealing with discipline problems and working with young people from a variety of social, cultural and racial backgrounds.
4. funding and staffing in colleges of education should be at a professional level.
5. education professors will be required to have taught at least three years in an elementary or secondary school or have comparable experience.
6. colleges of education will establish a close working relationship with area school districts.
7. advisory committees which include school district personnel and lay citizens are to be used by colleges of education to plan improvements in teacher education.
8. follow-up of graduates is to be conducted to learn how further improvements can be attained.

The College of Education at Bowling Green just completed and accreditation review by the State Department of Education last spring. Since the reviews normally take place every five years, the next visit by state accrediting officials will probably be in 1980, when the new standards are to be operative. In addition, the College was reviewed just one year ago by the National Council for the Accreditation of Teacher Education (NCATE), the national accrediting agency. National reviews are scheduled every ten years.

"In studying and revising our programs, we will be implementing suggestions made by NCATE, the state accrediting officials, and goals and missions we have identified for ourselves, as well as the new set of state standards," Dr. Mills explained.

Various councils in the College of Education will proceed with different phases of the study. In addition, program area coordinating units are being formed to study and revise the curriculum outlines of each set of experiences that lead to certification in some educational role.

The program area coordinating units will include a coordinator and representatives from the various departments within the College that are concerned with the particular sequence involved. In addition, each unit will include a faculty member involved in coordinating field experiences of education students.

Each unit's membership will be further supplemented by a faculty member from the general studies area, a student within the particular sequence, and a teacher or administrator from a public school in the area.

Both undergraduate and graduate programs will be surveyed. The members of the units will then develop curriculum plans, standards for admission, and methods of monitoring student progress.

Studies conducted by the various College of Education councils will include investigation of strategies for obtaining additional external resources, establishment of a network of cooperative arrangements with area public

schools, plans for faculty assignments, and integration of academic, clinical and field-based experiences.

A special task force will be appointed to develop a plan for the exploratory stage of the field-based experiences that will provide first year students the opportunity of exploring the field of education as a career.

The need for early and sequential exposure to classroom experiences was recognized at Bowling Green over a year ago in a report by the Task Force on Early Field Experiences, a committee of seven College of Education faculty members, including Dr. Mills.

The College of Education Council is charged with the task of coordinating the efforts of the councils. Monthly monitoring of their activities will assure the administrative branch of the college that sufficient progress is being made to meet the state's July 1, 1976, deadline.

The Education Council and the Dean's staff will be in charge of coordinating the suggestions of the various councils into a comprehensive plan of action.

Bowling Green Is First In Organization Development

The first class of students to pursue a masters degree in organization development will begin classes at Bowling Green next fall. Approved by the Board of Regents in January, the program is one of the first responses by an educational institution to the need for training in organization development at the graduate level.

According to Glenn Varney, assoc. professor of management, it is also the only non-resident degree program offered in that field.

"The unique thing about our plan is that it does not require a practicing manager to set aside his professional career for academic pursuits," Dr. Varney explained. "No other school in the country has a graduate program like this one."

The program requires 46 hours of credit and will take about three years to complete. The initial class will spend eight days in intensive study on the campus, followed by 15 two-day weekends of study. The second year of the program also requires a number of weekends on the campus, but with increasing amounts of research work done at the manager's own company.

The third year of the program is earmarked solely for research and thesis. Because much, if not all, of the research is done at the student's company, employers must approve enrollment in the program.

Dr. Varney hopes for a total of ten or more students in the initial class, and five managers are already enrolled in the program. Another ten have submitted applications.

Class members were expected to be from the north-western Ohio area, but applications have been received from managers in Harrisburg, Pa., Chicago, and Seattle, Wash. Many of the applicants are backed financially by their employing organization.

The program is designed to instruct professional managers, researchers and academicians in the complexities of organizing and managing human resources.

Coursework is a combination of a variety of disciplines, such as psychology, organization behavior, and sociology.

Applicants must hold a bachelors degree or demonstrate proficiency in accordance with the accreditation standards

of the American Academy of Collegiate Schools of Business. It is assumed that students of the course already possess a substantial understanding of statistics, accounting, management, finance, economics, and legal studies.

Staffing for the program will be provided by a five-member core faculty from Bowling Green and six adjunct faculty members from other institutions. Bowling Green faculty will include Dr. Varney; Raymond Tucker, professor of speech; Michael Ferrari, assoc. professor of management and vice president of resource planning; Ed Esbeck, asst. professor of management, and Ken Alvares, asst. professor of psychology.

Women Managers Invited To Summer Workshop

A one-day workshop entitled "Management Skills for Women" is planned for the summer session by the Office of Continuing Education.

According to Sandra Wright, education specialist, the workshop should be of special interest to women faculty or women in management or administrative positions at the University. "We feel it will appeal to all women," she added.

The workshop will be conducted by Response and Associates of Chicago, Ill., and will be held on the campus.

Information concerning registration fee and course content can be obtained from Miss Wright at the Office of Continuing Education, phone 372-2416.

Summer Sports Schools Allow Faculty-Staff Discount

Athletic director Richard Young has announced that the ten per cent faculty-staff discount will also apply to the University's Summer Sports School which has been expanded to include 15 offerings this year.

Children of faculty-staff who wish to participate in the one-week sports camps will also receive the discount. The camps are open to both boys and girls between the ages of ten and 17.

The boys basketball camp is scheduled for June 22-27, and a girls basketball camp will be held July 13-18. Both boys and girls can enroll in one-week camps for baseball (Aug. 17-22), golf (July 6-11), soccer (July 27-Aug. 1), tennis (July 6-11), track and cross country (June 22-27).

A wrestling camp will be held July 13-18 and is open to boys only.

The Ice Arena will also be offering programs throughout the summer in figure skating, beginning skating and hockey (boys only).

Fees for the one-week sport camps are \$90 for residents (includes room, board, and T-shirt) and \$60 for commuters, less discount.

In addition to the one-week sport camps, special clinics will be conducted in athletic training (July 27-Aug. 1) and cheerleading and precision dance (July 31-Aug. 1).

Adult courses, designed for coaches, are also scheduled. Robert Keefe, professor of health and physical education,

will conduct a three-week workshop dealing with sports coaching techniques from June 19-July 9. Terry Parsons, chairperson of the HPE department, will supervise a two-week workshop in coaching and public relations from July 24-Aug. 6. A one-week soccer coaching school will also be held July 13-19, coordinated by Michey Cochrane, head soccer coach.

University coaches will head the staffs for all the camps and clinics.

For information about any of the programs and enrollment cards, write or call the Athletic Department (372-2401). Applications will be accepted up to the first day of the camp in which enrollment is sought. However, enrollment is limited and early application is recommended.

Inquiries concerning hockey and skating programs should be directed to the University Ice Arena.

Appointments and Promotions

Terry Parsons, assoc. professor of health and physical education, has been named chairperson of the department. Dr. Parsons has been acting chairperson since September when Samuel Cooper retired after 25 years as department chairperson. The new chairperson is a graduate of Denison University and holds a masters degree from Bowling Green and a doctorate from Ohio State University. Dr. Parsons formerly taught and coached at Mount Union College and Otterbein College. He joined the faculty at Bowling Green in 1970.

Terry Parsons

Bernice Waggoner

Bernice Waggoner, professor of physical education at Central State University, Edmond, Oklahoma, has been named professor and chairperson of the department of physical education and recreation. Dr. Waggoner's appointment will take effect next September.

The new department chairperson is a 1949 graduate of Abilene Christian College. She holds a masters degree from the University of Colorado and a Ph.D. from Texas Women's University where she majored in physical education and minored in recreation.

(cont. on page 12)

Raymond A. Downs, of Providence, R.I., has been named director of student development effective June 1.

Dr. Downs is a graduate of Hampton Institute, Hampton, Va. He holds a masters degree from Temple University, and an Ed.D. from the University of Massachusetts. He is currently director of the needs assessment component and evaluator of the Rhode Island Teacher Center, Rhode Island Department of Education. He formerly was coordinator of the Laboratory Education Advancement Program (LEAP) at Brown University, a program which identified, encouraged and assisted minority students to enter the field of medicine and allied health.

Larry E. Foster, Washington D.C., has been appointed asst. dean of health services for the College of Health and Community Services, effective July 1. He is currently coordinator of allied health program development and new programs in the School of Medicine and Health Sciences at George Washington University.

Dr. Foster is a graduate of the University of Nebraska. He holds a Ph.D. from the University of Illinois and is currently completing requirements for a doctorate in higher education administration at George Washington University.

Faculty Senate Highlights

Perry, Stang Elected Faculty Senate Officers

The University Faculty Senate has elected Joseph Perry, professor of sociology, to serve as vice chairperson of the Senate for 1975-76. Stuart Givens, professor of history, will assume the office of chairperson at the Senate's June 3 meeting.

Also elected to a Senate office was Genevieve Stang, associate professor of educational foundations and inquiry, who will serve as secretary of the Faculty Senate for a two-year term.

The Senate elections took place at the May 20 meeting.

Retiring officers are Ramona Cormier, professor of philosophy, who has served as the 1974-75 chairperson, and J. Robert Bashore, professor of English, who has been Senate secretary for the past two years.

Stuart Givens

Joseph Perry

Grants and Scholarships Received

Exxon Education Grant Brings TIPS Program To Bowling Green

A grant from the Exxon Education Foundation has enabled Bowling Green to obtain a computer program designed to help an instructor tailor his course to the needs of individual students.

The program, known as TIPS (Teacher's Information Processing System) was developed by Professor Alan Kelly, of the University of Wisconsin, over the past ten years. Now that the program has been perfected, Exxon is attempting to spread the usage of TIPS to other educational institutions with the awarding of the grants.

The grant to Bowling Green totals \$5,915 and is under the direction of Peter Facione, chairperson of the philosophy department.

TIPS is designed to provide more individualized instruction of large lecture courses. Dr. Facione plans to use the computer program in the fall with a large class that will be enrolled in philosophy 205, Logic, which he teaches along with Donald Scherer, assoc. professor of philosophy, and Michael Bradie, asst. professor of philosophy.

According to Dr. Facione, the program provides for mini-tests which are given to the students each week. These tests are not graded, but rather analyzed and interpreted by the computer.

The computer then prepares a letter for each student, which prescribes what he should do for the coming week. Students may be advised to work ahead if they are doing well; review the work if they could do better; or sit in on extra lectures to better understand the material.

In order to use the computer program, the professor must 1) identify the instructional objectives of the course; 2) find a way of testing objectively; 3) develop a set of decision procedures for dividing the students into groups, and 4) write a set of prescriptions for each student division.

Faculty members interested in using the program may contact Dr. Facione for further information.

Other grants and scholarships awarded to the University, as reported to the *Monitor*, are as follows:

Department of Health, Education and Welfare, \$38,135 for "Ontogeny of Learning and Memory," a program under the direction of Michael Nagy, professor of psychology.

\$19,393 for "The Influence of Metal Complexes on DNA," a project under the direction of William M. Scovell, assoc. professor of chemistry.

Department of Agriculture — Forest Service, \$5,417 for an intergovernmental personnel assignment agreement with Martha Eckman, asst. professor of English.

State Department of Education, \$25,000 for in-service conference in business and office education for 1975, under the direction of Don Bright, professor of business education.

\$7,984 for 1975 summer workshops in industrial arts under the direction of Tom Jensen, associate professor of industrial education and technology.

\$14,220 for teacher institute under the direction of Donald J. Chase, asst. professor of education and assistant director of student teaching.

Ohio Commission on Aging, \$14,650 for "Nutrition Education and Food Habits of Elderly" under the direction of Jean Kincaid, asst. professor of home economics.

Ohio State University Research Foundation, \$12,000 renewal grant for "Locust Point," a project under the direction of William B. Jackson, director of the Environmental Studies Center.

Johns-Manville Corp., \$1,296 for industrial training research project under the direction of Richard A. Swanson, professor of industrial education and technology.

Newsmakers

Seldon L. Carsey was voted president-elect of the Ohio Environmental Health Association during its annual meeting in Columbus. More than 600 environmentalists belong to the OEHA, oldest state organization of its kind and the second largest affiliate of the National Environmental Health Association. Mr. Carsey is director of environmental safety and health at Bowling Green.

Vakula S. Srinivasen, assoc. professor of chemistry, was named "outstanding professor of the year, 1974-75" by the American Chemical Society — Student Affiliate of Bowling Green. A certificate and cash award was presented to Dr. Srinivasen at the society's annual banquet on Saturday, May 17. The award recipient is selected by a vote of members of the society.

Jane L. Forsyth, professor of geology, has been appointed to the Ohio Natural Areas Council by Governor James A. Rhodes.

Beatrice Morton, assoc. professor of English, is the author of an article on creative dramatics for *Student Member Newsletter*, a monthly publication for student members of the National Council of Teachers of English.

Stephen Chang and **Joseph Spinelli**, asst. professors of geography, and **Alvar Carlson**, assoc. professor of geography, presented research papers at the Western Society Science Meeting held May 1-3 in Denver, Col. Dr. Carlson also served as chairperson of one session of the meeting.

A seminar in electron microscopy for physicians and medical personnel of northwest Ohio was held May 22 on the Bowling Green campus. **Richard E. Crang**, professor of biological sciences, and **Patrick H. Ashbaugh**, senior electron microscope technician, served as staff members for the seminar along with William A. Morningstar, pathologist at Veterans Administration Hospital, Cleveland, and G. Colin Budd, professor of physiology at the Medical College of Ohio. The seminar is the first program jointly sponsored by Bowling Green's Office of Continuing Education and the Medical College of Ohio.

Approximately 150 mathematicians attended the spring meeting of the Ohio section of the Mathematical Association of America held on the Bowling Green campus May 2-3. **Thomas Hern**, assoc. professor of mathematics, was director of local arrangements for the meeting.

"Administrative Communications — A View From the Other Side of the Fence" was the theme of the 49th annual conference of the Women's Physical Education Section of the Ohio College Association held at Bowling Green last month. Nearly 80 representatives from Ohio colleges and universities attended the event. **Agnes M. Hooley**, professor of physical education and recreation, was conference manager. Dr. Hooley was assisted by **Beverly Zanger**, assoc. professor of physical education and recreation, and **Nancy Loomis**, of the University Union staff. Mrs. Zanger is president-elect of the OCA Women's Physical Education Section. The conference included a presentation on competency-based education by staff members of Bowling Green's Competency-Based Undergraduate Education (CUE) Center.

Jeffrey Danhauer, asst. professor of speech, was director of a workshop of the verbotonal method of teaching language and speech to persons with impaired hearing May 1-2. The workshop, held on the Bowling Green campus, attracted clinicians, teachers and students. Dr. Danhauer and **Melvin Hyman**, director of speech and hearing, were speakers at the workshop.

Two works by **Thomas Hilty**, asst. professor of art, were among the 150 items selected for the "National Graphics Exhibition '75" shown at Rutgers University, Camden, N.J. last month. The 150 exhibition pieces were chosen from 1,565 entries of 820 artists from across the country.

(cont. on page 14)

MARIAN MOORE became the first recipient of a national citation from the Bowling Green chapter of Mortar Board, senior women's honorary society. Mrs. Moore was cited for her "gracious hospitality" to Mortar Board and other campus groups, for involvement with international student programs and continuing dedication to the arts at the annual initiation ceremony held recently at Prout Chapel. Displaying the citation are (left to right) Pat Welt, senior advisor to Mortar Board; Mrs. Moore; Janet Bilsing, campus chapter president, and Anne Christianson, former national president of Mortar Board.

Thomas Wymer, assoc. professor of English, has published an article on the trends in science fiction in the May issue of *Extrapolation*, a journal of science fiction and fantasy.

A conference on "Leadership Development in Higher Education" was held April 29 in the University Union under the sponsorship of the department of educational administration and supervision. Keynote speaker for the event was Broadus N. Butler, director of the office of leadership development, American Council on Education, Washington D.C. Discussion leaders for the afternoon workshop sessions included **Karl E. Vogt**, dean of the College of Business Administration; **Charles A. Leone**, dean of the Graduate School; **Douglas Reed**, dean of the Firelands Campus, and **John G. Eriksen**, dean of the College of Arts and Sciences, along with Max Covert, president of Northwest Technical College and Roland Patzer, president of Urbana College. **Ronald Jones**, assoc. professor of educational administration and supervision, was chairman of the conference.

Frank Zahn Jr., assoc. professor of economics, is the author of a new economics textbook just published by Prentice-Hall Inc. The book is entitled *Macroeconomic Theory and Policy* and uses a model-building approach to the study of economic analysis for students in business management.

Lewis Fulcher and **G. Comer Duncan**, asst. professors of physics, presented a research paper entitled "Anisotropic Electrodynamics" at the spring meeting of the American Physical Society held in Washington, D.C., April 28-May 1. **Ronald E. Stoner**, professor of physics, and **Waldon Mertz**, graduate student in physics, also attended the meeting.

William C. Spragens, assoc. professor of political science, served as publicity chairman for the annual meeting of the Midwest Political Science Association held in Chicago May 1-3.

Young-Nam Kim, violinist and asst. professor of performance studies, meshed talents with Paul Schoenfield, pianist and composer-in-residence at the University of Toledo, for a performance at the Carnegie Recital Hall, New York, recently. The pair received a very favorable review in the New York Times. Critic Allen Hughes said their appearance was "the most balanced performance of works for violin and piano that this listener has heard in a long time."

Timothy F. Smith, director of interfraternity and special affairs, was named "Faculty Man of the Year" by Omicron Delta Kappa, national men's leadership society. Other faculty and staff members tapped for membership in the society this year included **Gregory DeCrane**, director of student activities and new student programs; **Derek Dickinson**, director of standards and procedures; **Donald J. Chase**, asst. professor of education and asst. director of student teaching; **William L. Barker**, asst. professor and librarian; **Karl Vogt**, dean of the College of Business Administration; **Wendell Jones**, asst. professor of performance studies; **Delmer Hilyard**, professor of speech; **Willard Wankelman**, trustee professor of art, and **Betty Whittaker**, asst. director of financial aid.

Albert B. Blankenship, professor of marketing, has been named "Marketer of the Year" by the northwest Ohio chapter of the American Marketing Association, in recognition of his significant contributions as an educator and practitioner in the field of marketing. Dr. Blankenship has held several executive positions, including director of market research for Carter-Wallace, Inc.; vice president and director of Canadian Facts, Ltd., and executive vice president of Blankenship, Gruneau Research, Ltd. He has been a member of the Bowling Green faculty since 1971.

Dorothy Brickman, acting director of International Student programs, was a member of a panel discussing "Emergencies of Foreign Students" at the National Association for Foreign Student Affairs Conference in Washington D.C. recently. Miss Brickman's presentation related to housing for foreign students. She is past chairperson of NAFSA Region VI, which includes Ohio, Indiana and Kentucky. Also attending the conference was **Nobby Emmanuel**, graduate assistant in health and physical education, who is currently serving as chairman of Region VI Student Caucus. NAFSA membership includes foreign student advisers, admissions officers, teachers of English as a second language, advisers to U.S. students going abroad, university international officers, Fulbright program advisers, community programmers and other students and individuals from government, private agencies and corporations with an interest in international educational exchange.

The University chapter of Women in Communications, Inc. (WICI) recently recognized three faculty-staff members for outstanding achievements in mass communications. **James R. Gordon**, assoc. professor of journalism; **Harold Fisher**, asst. professor of journalism, and **Kathleen L. Lewton**, asst. director of the University News Service, were selected for professional excellence and concern for and work with students. The organization also recognized three faculty members for significant contributions to the improvement of the status of women at the University. They were **Greer Litton Fox**, asst. professor of sociology; **Virginia B. Platt**, professor of history, and the late **Rena L. Foy**, formerly professor of educational foundations and inquiry. WICI announced that the award will be known as "The Dr. Rena L. Foy Award for Significant Contributions to the Improvement of the Status of Women" in the future and will be presented annually.

Margaret Tucker, director of in-school television at WBGU-TV, has been appointed to the Title IV Advisory Council of the State Department of Education. The Advisory Council assists the state education department with the preparation of the annual program plan, policy matters concerning the administration, the development of criteria for distribution of funds, and the approval of applications for learning resources and innovative programs under Title IV.

Robert L. Perry, director of the ethnic studies program, has been invited to participate in a panel discussion at the 1975 Annual Meeting of the American Sociological Association on Aug. 25-29 in San Francisco, Cal. Mr. Perry will join with two members of the sociology faculty of the University of Massachusetts, in discussing "Race and Criminal Deviance: A Study of Youthful Offenders."

Richard W. Bowers, professor of health and physical education, presented a paper at the annual meeting of the American College of Sports Medicine in New Orleans May 23-25. The paper, co-authored by **Peter A. Farrell**, instructor in health and physical education, was entitled "Estimated Energy Cost of Curling." The annual meeting also included a symposium conducted by four visiting exercise biochemists from the Soviet Union.

Kenneth Miller, former producer-director for WBNG-TV, Binghamton, N.Y., has been named producer-director at WBGU-TV. A 1972 graduate of the State University of New York at Oswego, Mr. Miller also worked as a newsman at radio station WRUO-FM, Oswego.

A scholarship honoring **Kenneth Green**, asst. professor of business education, has been established by the Independent Association of Ohio Distributive Education Clubs of America (DECA). "The Kenneth Green Scholarship" will be presented to a student member of DECA who plans to pursue post-secondary education in the field of marketing or distribution or to a student who wishes to pursue a career as a distributive education teacher-coordinator. Mr. Green has been involved with DECA for the past five years and has been instrumental in organizing conferences for the group. He is advisor of Collegiate DECA here at Bowling Green.

Richard Cioffari, asst. professor of performance studies, conducted the Lima Symphony Orchestra's performance of his own composition, "Fantasy for Flute, Strings and Harp," on May 10. The work was commissioned by the Lima Symphony.

Mohan N. Shrestha, asst. professor of geography, has been elected membership chairman of the Ohio Academy of Science.

An address by **Alma J. Payne**, professor of English and American studies, was reprinted in the first issue of *The Old Northwest*, a journal of regional life and letters published by Miami University. The address, presented to the Society of Midwestern Literature, surveys the use of the midwest as a resource by major 19th century American writers.

John Hayes, graduate student in geography, has been awarded a Regent's Graduate Intern Fellowship at the University of California at Los Angeles (UCLA), beginning the 1975-76 academic year. The fellowship provides four years of sustained support while the recipient engages in two years of intensive pre-doctoral study and two years of apprenticeship training in teaching.

Stephen C. Morton, archivist and rare books librarian, has been elected to a fourth consecutive term as secretary-treasurer of the Society of Ohio Archivists.

Marilyn Perlmutter, asst. professor of speech, conducted two workshops during the past winter quarter for practicing speech pathologists in Ohio. The day-long workshops were held Feb. 15 in Bowling Green and March 14 in Mansfield. The program was designed to train clinicians in the use of a rating scale for voice disorders.

Lois Renker, assoc. professor of home economics, is president-elect of The Toledo Dietetic Association for 1975-76. TDA is a professional organization for all dietitians in northwest Ohio. During her term as president in 1976-77, she said she hopes to increase public understanding of the dietitian's role in health care.

Don E. Bright, assoc. professor of business education, and **Leo J. Navin**, assoc. professor of economics and chairperson of the economics department, were inducted into Beta Gamma Sigma, national business administration honor society, on May 18. The two faculty members were initiated along with 62 students and Toledo bank president Earl J. Wright.

Three faculty members were recognized at the annual College of Arts and Sciences honors banquet on May 14. **V. Frederick Rickey**, assoc. professor of mathematics, and **Charles W. Holland**, professor of mathematics, received the Kappa Mu Epsilon Award for excellence in teaching mathematics. **Elmer A. Spreitzer**, assoc. dean of the Graduate School, received the Joseph K. Balogh Award, presented annually to the sociology faculty member who, in the opinion of his peers, has contributed most to research, teaching and the University.

Duane E. Tucker, general manager of WBGU-TV, has been elected to his fourth term as president of the Ohio Educational Television Affiliates, Inc., an association of Ohio ETV stations. He is past president of the Ohio Council on Educational Television and was instrumental in organizing the Ohio ETV Affiliates, Inc., which replaced it.
